Persons in special access program say that military lacks the sensors and electronic warfare detection equipment around all bases to detect neurotech properly

You

2023/2/20 9:04 PM

Persons are in trouble , persons who are colleagues of specail access program are being held hostage by neurotech . It is impossible to tell the difference between a person who is under neurotech vs who is not besides advanced sensors - unless they self report which could be missed , could be in robot mode so the person using the tech could make them lie , or could not understand what is happening or misdiagnose the problem

You

2023/2/20 9:04 PM

Persons could be in distress but have had their "bodies and mouths " talked out of and moved . Only person with highest security clearance will understand

You

2023/2/20 9:05 PM

This tech can be used to impersonate people by "taking over their bodies " using the most advanced tech in the world

You

2023/2/20 9:07 PM

Send agents to Martin seidel house to move him he in danger - 11315 Drummond circle .

You

2023/2/20 9:11 PM

Please find the other persons in distress who are colleagues ,associates , friends , and family of the special access program members - cannot tell without sensors - please get the right fucking

sensors you fucking idiots and get your head out of your ass . Their was a coup you dumb fucking idiots

You

2023/2/20 9:27 PM

Ever see the movie "invasion of the body snatchers " this tech is similar but it is all remote . It allows the remote override of the nervous system and muscles . Allows person to "be controlled like a robot "

You

2023/2/20 9:29 PM

Pitch, frequency , speed , and movements can be matched to person baseline using computers (meaning it is not possible to tell difference -even in voice or movement without sensors )

Persons are using this tech to coup and stall the investigation

You

2023/2/20 9:31 PM

This is real - urgent - this is real . Not a lie . Take seriously .
