Persons who did this tricked other parties about where the legal defences came from and how the information was acquired and now they say they must cover it up or they have no legal defense because they acquired it under torture - but persons were so comprehensive that persons who are trying to help Martin would have no legal defenses if they were not permitted in court -

Persons are being forced to torture him by having torture and directed energy applied to their body and brain to affect brain and emotion

Persons in a CIA special access program which is ORCON and which has not been disclosed .

Had access to technology that can contract the muscles of a person. The system can contract any muscle of the body in any magnitude , it can contract muscles independently or in groups . The system can contract muscle groups required for any action in the correct order for that action . The system is remote and uses fluxes electromagnetic beams targeted at the correct region of the nervous system (which is tracked in real time) to cause the correct induction current to get an action potential to contract the muscle or muscles of interest - please get the technical documents for this system . The system can contract the muscles of the body remotely and control a person as if they were a "robot " as the person becomes controlled by computer inputs . This is real tech and it is classified top secret . It is a leak

Please investigate this technology . It is being used to automate human beings . Persons are using artificial intelligence to program coordinated movement and action sequences through the bodies of human beings .

This is not a fabrication or a lie . The persons in the CIA are doing this .

for this system . The system can contract the muscles of the body remotely and control a person as if they were a "robot " as the person becomes controlled by computer inputs . This is real tech and it is classified top secret . It is a leak to the White House about it .

Please investigate this technology . It is being used to automate human beings . Persons are using artificial intelligence to program coordinated movement and action sequences through the bodies of human beings .

This is not a fabrication or a lie . The persons in the CIA are doing this . Persons can use software and computer vision that is running on the "eye vision"- the use of electrical field reconstruction to get the real time vision of a person .

Persons use computer vision software and the muscle contracture software linked to make it so a human can perform tasks set by objects - as the software that controls metal robots in humanoid form is being applied and worked on in humans .

Persons who tortured Martin Robert seidel and who are using it on him now have access to this software . This is a leak of it .

Please investigate why the Dod /CIA special access program refuses to turn off the systems on Martin Seidel . Please investigate why they are torturing him so badly and how they ambushed him to do it.

Please make the fbi investigate the torture of Martin Seidel .

Persons in a special access program are using classified muscle contracture software on Martin seidel 24-7 . Persons are using this software which can real time track the body . It can aim emf flux at any of the muscles of the body to contract the muscle or muscles in any magnitude or order . The software has the ability to track all the muscles in the body and their associated nerves . The system allows an operator or with software to contract the muscles of the person the system is tracked onto . The system can contract the muscles of the body including the muscles of the eyes and tounge . It allows a person in the operator room to have all their muscles tracked and it uses emf flux to translate the movment in near real time at the target .

Please investigate why persons refuse to turn off theses capabilities and why persons refuse to turn off the direct energy . Please have the FBI investigate everything that happened and who was involved and who used the technology and on whom and how .

Please get access to the records from the other institutions . Please get access to the software and records and neurological data that is classified top secret .

Please make persons investigate the torture of Martin Seidel .

Please get the military law enforcement to investigate.

He is getting maimed and paralyzed

Persons have killed peoples family members in the special access program out revenge , vengeance , and by being psyoped or neuroteched to do it .

Persons can make it look like natural causes - especially with rootkit hacking of medical laboratory equipment
