Persons used the classified neurotech and directed energy to give mike pence a heart attack in 2021 - the one that made him get a pacemaker .

Persons admitted to this

This tip was written by the muscle contraction technology - please get technical documents - please get the raw neurological data from special access program

You

Persons are willing to testify in court that this is the truth

You

Persons wanted to use covert mode on persons around the VP and other highly advanced capabilities and psyops to convince him and advisors to overturn the 2020 election . Other people stopped them and wouldn't let them use them .

The evidence in the classified neurological data points to them taking revenge on the people who told them not too and also it has a person inadvertently admitting that this tech was used to give him a heart attack .

A lot of these guys are MAGA (it seems)

There is proof . They will lie and say it's not about this . But they spiraled the torture and revenge they took out of control after 2020 .

This is the truth - it won't make sense until persons realize these guys have sophisticated means and methods (and until people gain access to understanding what equipment they have and the records)

Persons wanted to use the "subliminal " mode to make Vice President pence get psyoped to want to overturn the election .

This is the truth . Ncis doesn't realize

Subliminal mode is the same mode description for what they did to the Presidents doctor .

The system can be used to give a person artificial thoughts . The people who operate it have put in

research to make it difficult for your brain to tell if the thought is your own or a synthetic one (they amplitude matched the magnitude of synthetic neuron firing for the region for thought to match those of a real thought - persons can calibrate by using the remote eeg like ability (it's better than eeg- they say cause it allows emotional cloning and eeg thought retransmission) . Persons can calibrate the system to make it match the amplitude and speed of your natural thoughts when synthetic thoughts are transmitted.

The system aims the correct electromagnetic beams at the regions of the brain required for thinking (to synthetically fire them)

Persons wanted to use this mode on people around Pence and even the VP himself . (This has been claimed many times) to influence his decision.

You

People stopped them from doing that . This is what has been claimed many times .

FBI doesn't understand what happened - this is a true tip

You

They wanted to do this to him on weeks leading up to January 6 - so that the electors would be sent back to the states . This is true - this started some major stuff between people with this tech (people say)

You

2023/8/7 10:42 AM

This is what's referenced in messages to the White House they made Martin write that say "they had a plan to overturn the election " but never went through with it

You

2023/8/7 10:43 AM

This is the most sophisticated tech on the planet - people have used it to influence people - ncis does not understand "covert mode " and "subliminal mode "

You

2023/8/7 10:48 AM

They wanted to overturn the election by psyoping elected officials and congress people . Using technology and methods the military law enforcement and fbi don't understand - this is the truth

You

2023/8/7 10:55 AM

They have covert psychological operations and behavioral modification capabilities that use neurological capabilities and neurological algorithms

It's real - please gain access to their methods book they developed and please gain access to the "long range eeg type system" which allows remote monitoring and reconstruction of internal monologue and of the real time vision someone see"s

Please gain access to the capabilities book and records which explains what can be done using the tech .

Ncis needs to see(the system in action and what it can do) it to believe it

"Influence " world and government leaders tech is the neurological psyop tech - that can be used to alter behavior , mood , thoughts , and other physiological and cognitive functions .

USA has this tech and they wanted to use it on people around Pence and on it himself - to subliminally suggest and to alter opinions and mood . They admitted this directly to us - there is proof of these convos too .

Please don't dismiss - very very few people have access to and understand this tech [Attachment #1329621 Added]

It's long range and works through buildings and structures - tracks people brain and body in real time and can hit the brain with precise electromagnetic beams and waves or broad fields .

People who worked in the program in 2020 and 2021 and those who still do - wanted to overturn the lawful election of Joe Biden using psychological operations and neurological psychological operations - (they wanted to help) - this is true

These guys said that military law enforcement is " playing "where's Waldo ?" without knowing what Waldo looks like " regarding this program

You

They plan this stuff behind everyone's back on their long range electromagnetic system

The remote eeg-like capabilities which can return a users internal monologue (rendered using advanced mathematics - to turn the electromagnetic fields reflected from the system/backscatter into the real time internal monologue / imagined speech (even turns the transmitted speech back into sound the operators hear) - this is the reciver (like a telephone reciver)

The transmitter/speaker - is the ability to stimulate the regions of the brain with induction currents in precise location and sequences to fire the region of the internal monologue to render sound . (This is the transmit)

They bragged and planned some of this stuff on this system in 2020 about what they were doing along with psyops about

You

These guys wanted to overturn the 2020 election

They use the covert mode and system and long range eeg throughout America and the world to do what they want (and to commit felonies)

There is also a conversation(more like a comment) about how they want to "sabato" the Biden

admin during the first 100 days - this convo is recorded
