Persons are saying that no matter what he does that they will keep the directed energy and slow kill capabilities on his body .

Is the Navy really going to allow that ? For people to be slow murdered after begging for help from the fbi and the army .

Persons are abusing and using classified muscle contracture capabilities that are remote . Persons are using this to "synch" to his body , meaning persons are intercepting his natural muscle nervous system activity and replacing it with synthetic contractures . Persons can do this for all the muscles in the body at once - even the eyes and the tongue . The system has the ability to allow the operators of the equipment to translate their movements into the target of the system .

Persons have left this system on Martin for over 15 months . - please recognize how major of a crime this is . Tips will be submitted everyday to law enforcement to update

Persons in the special access program said they release viruses using the technology on people / making people do it . - by doing stuff to their brain or by moving their body (fully synching to their body) persons said they spread viruses like this . Persons said they spread biological material like this and material on animals .

Persons said they used the software on persons around superfund sites too to make them get contaminated .

Persons are writing this tip by contracting the hands of Martin .

This was submitted to the FBI .

Can the people with the technology just do whatever they want ??
