Persons in 2021 used the electrical aiming and audio transmission capabilities on mr.Seidel to get him to go to KU Hospital and say he was a cia agent and victim of Havana syndrome . Persons there gave him a CT scan and a choice to be voluntarily hospitalized . Persons in special access program did this to get him a false schizophrenic diagnosis since he was unemployed at the time .Persons did this to discredit him in the future as the night and weeks before he was trying to write a lawsuit for federal court pro se and the Supreme Court which persons in the special access program made him delete (it was against the wrong parties since voice modulator software was on). Persons made him go to the hospital while applying the deepfakes software to him so later he would be discredited as mentally ill . Persons are doing that so he is not taken seriously and so that claims are not taken seriously and as a means to obstruct justice .

Persons will use that against him to say the muscle contraction system and the voice synthetic speech capabilities are not real to try and false hospitalize him when the actuality is the army law enforcement and fbi does not have access to the correct technical documents
