Persons admitted directly to Martin that persons have used capabilities on persons in the White House and on members of Congress .

Persons said they did it to the heart of the President and modulated his heart rate with emf . This has been reported to the FBI .

Persons also said they gave artificial dreams to the POTUS and other people in the executive branch .

Persons have used other capabilities to injure people that are ultra low energy requirement and frequency.

Please report this message to fbi

Please investigate the most advanced technology in the world over the human body . Please investigate the use of the most advanced technology on persons.

Persons in the military kept Martin Robert seidel sitting down on 4chan for the past 5 years using forced behavioral modification software and systems. Persons kept him there while using the advanced capabilities on him and on his brain to reconstruct his occipital lobe and his auditory cortex and internal monologue is real time . Persons used the brain and eye spying tech on him while using the muscle contracture technology to force him on the computer during the years from 2015-2020 . This is not a lie or fabrication . Persons started to torture him in 2021-2023 but in 2015 to 2020 they kept him on 4chan against his will .

Persons are using the technology on persons and moderators on the site . Persons in the military with the brain computer interfaces are comiting major lawful violation in what they are doing. Persons in the military are human trafficking persons using the muscle contracture technology to force them to sit on the computer and in martins case to force him on 4chan looking at information and threads and to "read his mind " and to harass and fuck with him .(while messing him like a regular targeted individual -but this one is way way way more strange )

Persons kept him on 4chan.org/pol an extremist website by using the technology on him to make him operate a computer . He thought he was just browsing but it was military special access program forcing him - this is real and not a fabrication , it is a leak .

Persons used the tech on him for 5 years without him knowing that is how advanced it is . Persons need to know that persons in the military are using the tech on persons on 4chan and the

moderators to manipulate and run the site in secret using the technology .

Persons forced Martin on the computer for the past 5-7 years which must be investigated !!!

Persons in a special access program are using classified muscle contracture software on Martin Seidel 24-7 . Persons are using this software which can real time track the body . It can aim emf flux at any of the muscles of the body to contract the muscle or muscles in any magnitude or order . The software has the ability to track all the muscles in the body and their associated nerves . The system allows an operator or with software to contract the muscles of the person the system is tracked onto . The system can contract the muscles of the body including the muscles of the eyes and tongue . It allows a person in the operator room to have all their muscles tracked and it uses emf flux to translate the movement in near real time at the target .

Persons are using this system on Martin Seidel as torture and punishment for the last 15 months along with directed energy and neurotech at his brain and organs .

FBI needs to see the software to understand what it can do to body and brain

The muscle contracture system is classified and is being used on Martin for extended durations .

Persons are using it on him from the moment he wakes up to when he sleeps . Persons are using it to write this tip write now .

Persons are using it to contract the muscles of his body but it is controlled electronically by another person .

Persons are torturing him and writing messages for him and whistleblowing. .

This is real .

The situation with the technology has gotten out of control and so is the situation at the place using the technology on Martin .

Persons are using direct energy on the persons who are trying to help martin.

Persons are using the muscle contraction system on him to force him to masturbate as rape and making people do it against their will .

Persons are hitting his nose with direct energy and his auditory nerve with emf to cause tinnitus .

Persons are contracting all his muscles- even to type this. - real

Please help

Please investigate this technology . It is being used to automate human beings . Persons are using artificial intelligence to program coordinated movement and action sequences through the bodies of human beings .

This is not a fabrication or a lie . The persons in the CIA are doing this .

---

Persons in a CIA special access program which is ORCON and which has not been disclosed .

Had access to technology that can contract the muscles of a person. The system can contract any muscle of the body in any magnitude , it can contract muscles independently or in groups . The system can contract muscle groups required for any action in the correct order for that action . The system is remote and uses fluxes electromagnetic beams targeted at the correct region of the nervous system (which is tracked in real time ) to cause the correct induction current to get an action potential to contract the muscle or muscles of interest - please get the technical documents for this system . The system can contract the muscles of the body remotely and control a person as if they were a "robot " as the person becomes controlled by computer inputs . This is real tech and it is classified top secret . It is a leak to the White House about it .

Please investigate this technology . It is being used to automate human beings . Persons are using artificial intelligence to program coordinated movement and action sequences through the bodies of human beings .

This is not a fabrication or a lie . The persons in the CIA are doing this . Persons can use software and computer vision that is running on the "eye vision"- the use of electrical field reconstruction to get the real time vision of a person .

Persons use computer vision software and the muscle contracture software linked to make it so a human can perform tasks set by objects - as the software that controls metal robots in humanoid form is being applied and worked on in humans .

Persons who tortured Martin Robert seidel and who are using it on him now have access to this software . This is a leak of it .

Please investigate why the Dod /CIA special access program refuses to turn off the systems on Martin Seidel . Please investigate why they are torturing him so badly and how they ambushed him to do it.

Please make the fbi investigate the torture of Martin Seidel .

Please get access to the records from the other institutions . Please get access to the software and records and neurological data that is classified top secret .

Please make persons investigate the torture of Martin Seidel .

Please get the military law enforcement to investigate.

Persons with the neurotechnology and classified directed energy system plan to kill President Biden, persons talked about this nonstop and have an active plot.

Same persons who are torturing Martin Robert Seidel.

Persons are forcing Mr.Seidel currently to have synthetic speech and synthetic muscle contraction out of his own mouth and as torture. Persons have been torturing him using electromagnetic waves and directed energy capabalties since Febuary of 2021.

Persons have been and are using this system on Martin Robert Seidel against his will no matter what he does. Persons are using and testing and torturing him with this system. This system is being used to write this message -get technical documents about system

It can track the location of the body of the individual it is aimed at and can target all the muscles or a muscle independently with all the degrees of freedom for each muscle. It can aim and track persons in real time to target their

muscles for contraction in any muscle , on the move , for all muscles. It is advanced and classified

The operators of said equipment can use software to track which muscles of theirs is tracked by the radio sensors in their room. The software can set and and track any muscle in the body of the operator. It can be set to translate movement mode. Which allows the operator to move their body and have it translate into the movement of the person the system is aimed at. It can copy any movement from the operator and translate it into the target.

They are using a classified muscle tracking system on his person. It tracks the muscles in his body and allows the operator track the muscles in their body.

Persons are writing this message out of Martins body using this tech right now . - he is being tortured and they refuse to turn off the muscle contraction system - members of the US Military and CIA and contractors . Persons refuse to give their first and last name to the FBI.

The system uses the brain non tracking the muscles \*\*\*\*\* other parties typed muscles to misdirect \*\*\*\* it uses emf on the brain to do percise movments - NOT THE MUSCLES ( Persons used how mr.seidel thought it worked before they inhibited his left inferior frontal gyrus /brocca and wernick area )

Persons are animating his face using remote long range neueotech - meaning persons are moving his facial muscles to make it appear he is lifelike and to talk out of his voice . Persons are keeping him comatose with a directed energy pulse to an inhibitory portion of his brain nonstop - persons in the program are typing this message by moving his hands - this is a real tip and not fake - this is urgent - the orcon special access program refuses to turn off the "body synchronization " mode - persons are trying to slow kill and torture mr.seidel while they talk out of his voice and pretend to be him - this is the truth -

Persons are using the tech on the precentral gyrus to move and contest his hands and the m1 motor cortex .

Persons are using the emf on the laryngeal motor cortex to make him talk out of his voice .

Persons are stimulating the frontal eye field to move his eyes against this will .

Orcon special access program that has access to long range directed energy technology that can track and aim at the body and brain . Special access program has access to advanced neurotech(remote ) algorithms that can aim electromagnetic pulses at the brain in precise waveforms and locations .

Persons with these neurotechnology algorithms can make the directed energy penetrate the brain at the correct depths and locations with the correct energy to stimulate physiological effect .

Persons with these directed energy systems (ground based and satalite based ) can aim directed energy onto the brain and onto a moving person or target .

The system can aim at the brain on the move and can be used to stimulate and synthetically fire neurons and regions of the brain in complex and precise patterns .

The system is capable of "remote neural monitoring" which is remote eeg/Meg and electron spin resonance and electron spin polarity resonance (classified ) - "can read your mind "

The system is capable of "remote neural monitoring" which is remote eeg/Meg and electron spin resonance and electron spin polarity resonance (classified ) - "can read your mind "

System can reconstruct real time visual field a target sees (can see what you are seeing out of your eyes ) , can reconstruct real time sound your ear hears (can hear what you are hearing ) and can reconstruct your thoughts in real time into another persons brain (an operator ) or onto a transcript (to be viewed / played back later )

System gives remote brain and nervous system data for all regions in real time - allows for real time electrical data of nervous system output to be displayed

He is getting maimed and paralyzed

Persons are animating his face using remote long range neueotech - meaning persons are moving his facial muscles to make it appear he is lifelike and to talk out of his voice . Persons are keeping him comatose with a directed energy pulse to an inhibitory portion of his brain nonstop - persons in the program are typing this message by moving his hands - this is a real tip and not fake - this is urgent - the orcon special access program refuses to turn off the "body synchronization " mode - persons are trying to slow kill and torture mr.seidel while they talk out of his voice and pretend to be him - this is the truth -

Persons are contracting his hands to write all the messages while inhibiting his brain from being able to control his body . Persons are using the remote system to contract and move his body nonstop - it is really heinous and it needs to be taken seriously .

Persons admitted directly to Martin that persons have used capabilities on persons in the White House and on members of Congress .

First 20 minutes (says about their brains too )- real

Please listen to this/ have the secret service listen to this (it is an audio recording about people hacking the whitehouse and using the tech on members of the White House ) it was transmitted through another man's voice (martins )

This recording was from April 17th

He needs help and the FBI to help him and to get the technical documents and neurological records from the ORCON- special access program

He needs medical attention and advanced fMRI and brain scans to show the damage to his brain and that his neurons are being synthetically fired .

Persons could have a full conversation out of his body while moving him and talking for him using "synthetic speech " and "forced airway manipulation " by firing his neurons on synthetically including those of his face . Persons can also walk him around and use his arms and legs remotely. The technology is very advanced and this is a serious situation.

Persons are keeping Martin Robert seidel as remote controlled human - this is real - urgent - it is possible - fbi and law enforcement does not understand the classified remote neurological manipulation algorithms and how it can remote control a human being to use their muscles in any direction or magnitude of contraction for all muscles or muscle .

Persons are contracting all his muscles- even to type this. - real

Persons are animating his face using remote long range neueotech - meaning persons are moving his facial muscles to make it appear he is lifelike and to talk out of his voice . Persons are keeping him comatose with a directed energy pulse to an inhibitory portion of his brain nonstop - persons in the program are typing this message by moving his hands - this is a real

Special access program has access to advanced neurotech(remote ) algorithms that can aim electromagnetic pulses at the brain in percise waveforms and locations .
